

# ANESTHESIA AUTHORIZATION

OWNER: \_\_\_\_\_ PET: \_\_\_\_\_ DATE: \_\_\_\_\_

PROCEDURE: \_\_\_\_\_

- **WHEN DID YOUR PET LAST EAT OR DRINK?**

- **PREOPERATIVE BLOOD SCREEN (\$44.40):**

Anytime anesthesia is administered or surgery is performed there are risks, regardless of how small. In order to minimize these risks a full physical exam will be performed on your pet. In addition to the physical examination, Windsor Park Animal Hospital **STRONGLY RECOMMENDS** the *optional* preoperative blood work, which determines the condition of the liver and kidneys, these organs are responsible for filtering any anesthetic from the body. The blood work also checks for systemic infections and/or anemia. This *optional* preoperative blood screening helps to further lower the risks of anesthesia and/or surgical procedure, and is an additional \$44.40.

**(Check one)**

I wish for the preoperative blood screening to be performed

I do not wish for the preoperative blood screen to be performed

- **POSTOPERATIVE PAIN MEDICATION (\$9.80-\$20.00):**

In most cases, pain medication is recommended for your pet's comfort and speedy recovery. It is given for three to five days after the surgical procedure. Pain medication will cost \$9.90 to \$20.00 depending on the size of your pet.

**(Check one)**

I want pain medication for my pet

I do not want pain medication

I, the undersigned, consent to the administration of anesthesia and authorize Windsor Park Animal Hospital to perform the surgical procedure listed above on my pet.
